SOME comments we've received about the CELTA courses run at International House Milan:

Facilities are great - there's everything you could possibly need for the course

It's so professionally run that you see the benefit of the course after every single TP lesson!

Best course I ever took. It gave me the instruments I needed to grow as a teacher. It should be mandatory for anyone wanting to teach the language!

I started the course as someone who taught and ended it as a teacher.
